Key Digital Announces Compass Control Pro Partner Alliance with Fusion Research Play-Fi

MOUNT VERNON, NY – March 5, 2018– Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Fusion Research Play-Fi is now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a bi-directional driver and a pre-configured GUI module with metadata feedback for their Compass Control® system. The Fusion Research Play-Fi driver supports multi-zone syncing, queue management, and streaming services such as FM Radio and My Apps. Compass Control will auto populate your Play-Fi Zones, Sources, and Music Library.

Compass Control® users will be able to use their Fusion Research Play-Fi within their Compass Control® app. Play-Fi® is a premium whole-home wireless audio system that allows you to stream your favorite content with astounding audio quality. Fusion Research provides a state-of-the-art audio media server that allows you to control all your music effortlessly from anywhere in your home.

“Resulting from cooperative efforts between Key Digital and Fusion Research, the integration of its Play-Fi controllers within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
